

**Washington Architectural Foundation-**  
Virtual Workshop: Exercise 03

# LANDSCAPE ARCHITECTURE

# REDESIGNING THE WASHINGTON MONUMENT GROUNDS!

Imagine the grounds of the Washington Monument as a kid and family friendly park with places to play, paths to stroll, and areas for picnics and relaxation.

**WHAT YOU  
WILL LEARN**

**WHAT TO DO**

- + How to use landscape elements to create spaces.
- + How to create landscape connection between different types of spaces.

**CHECK IT OUT!** Click on the various links to see designs by Landscape Architects to change the Washington Monument Grounds.

### **EXPLORE MORE!**

#### **BE CREATIVE!**

- + If you redesigned the Washington Monument Grounds, what would your park look like?
- + You may make models, drawings, computer animations or collages to describe your design.

#### **1. Use the following Landscape Elements from Exercise 01**

- Trees and Gardens
- Water Elements
- Shade Elements
- Hills
- Any other ideas?

#### **2. Make walking / running / bike paths through the park, or use the existing paths of the Monument grounds.**

#### **3. The paths will connect different types of areas. Within your park create a variety of experiences such as:**

- Play space for little kids
- Shaded picnic spaces for families
- Exercise / sports areas
- What other kinds of spaces would you like to include?
